

# ESMEE TROUW

This beautiful blonde is a joy to be around. During the day she enjoys glamming up with make-up and fashion, but in the evening she switches to a sporty look with kickboxing shorts and a tanktop. She started her career as a photographer and videographer, but transitioned from behind the camera to in front of it. With her experience, she knows exactly how to create an appealing scene for her audience and has already worked with many brands. She is a real entrepreneur and loves to keep herself occupied with three different businesses, which means she spends half the year in sunny Spain. This busy bee is always on the move, a real inspiration!
